## Gender Abbreviations (Sex)

**M** - Female gender (Mares and Fillies)

**S** - Male gender (Stallions and Colts )

**G** - Gelding

## Horse Colour Abbreviations

**Br** - All shades of Bay / Brown

**Ch** - Chestnut (Incl Flaxen, Liver Chestnut,

**Gr** - All shades of Grey / White

**K** - Black

## South African Provinces Abbreviations

**EC** - Eastern Cape Province

**FS** - Freestate Province

**GP** - Gauteng Province

**KZ** - Kwazulu-Natal Province

**LP** - Limpopo Province

## Breeding (Procreation) Methods

**AI** - Artificial Insemination

**ET** - Embryo Transfer

**Nat** - Natural

## Miscellaneous

**Imp** - Imported

\* - Used as prefix to **parents** in the pedigree and progeny lists to indicate an Imported **parent**

**MP** - Mpumalanga Province

**NC** - Northern Cape Province

**NW** - North West Province

**WC** - Western Cape Province

# Preface

The horse entries for the volume are ordered by their registration numbers.

Details about the horses entered in the volume contains the RegNmr, Sex (gender), Colour, Name and Date Of Birth all in a straight line.

Directly below and to the most left side of these details, the Method of Breeding (procreation) is shown in abbreviated format as explained in the Abbreviation section on Page: iii.

For an Imported horse, the word **Imported** is shown directly above the Name of the horse.

Below these details, an expanded three generation pedigree of the specific horse is shown. All horses in the pedigree are shown with their Stud Book reference and Registration Numbers in brackets as a postfix to the name.

For South African horses in the pedigree, the country's ISO id (ZA) is used as Stud Book reference except where the South African horse was exported in which case it is treated as all other foreign horses and the full Stud Book reference SASB is used.

For the South African horses in the pedigree, the Volume number in which they appear, is included and separated with a forward slash from the Registration Number.

Previously imported horses in the pedigree are shown with a star (\*) as prefix to the name.

The last item of the details of the specific horse, is the breeder registered with the AHSSA with the town and province location of the stud in South Africa. In the case of Imported horses, the date of importation is shown together with the breeder and country of origin.

## **Progeny Lists.**

The progeny lists for the Stallions and Mares are shown with the Imported horses **first** in the list in alphabetical order with their progeny followed by the Native bred horses in alphabetical order with their progeny.

## **Addenda Lists**

Addenda lists of all Deaths, Exports and Castrations of purebred registered horses that occurred during the relevant year covered by the Volume together with a list of relevant breeders which horses were included in the Volume, are available as a last addition at the end of the Volume

## **More about the Relevant Breeders**

Many horses contained in this volume are horses bred by breeders not active as AHSSA members anymore. Consequently, no contact details in this list for such breeders are provided. Mostly only the names, the prefix that was registered under their names and the province in which the stud was located are shown for such breeders.

**Member breeders and Owners of Arab horses are requested to examine the entries of their horses and notify the Society's office of any inaccuracies and/or errors in order that it may be corrected.  
For contact details, refer to Page: i**
